

Horizons Bible Study Skit
Preparing for a Journey
By Gail Hardy
Presbytery of East Tennessee

Intro: *Sue and Jane are friends. Sue is a PW member and she has invited Jane to join her for the 2010–2011 Horizons Bible study Journeys Through Revelation, by Barbara Rossing.*

Sue is in view, apparently waiting for someone.

Jane enters the room and greets Sue.

Jane: Hey Sue, hope I'm not late. Thanks for inviting me on this trip. I really need some time away—you know, a little refresher. I'm all packed and ready to go. Got my toothbrush (*holds up toothbrush*) and a can of tuna (*holds up can of tuna*) in case we get hungry on the way.

Sue: Jane, I think there must be some misunderstanding. You are going to need more than a toothbrush for this journey. We'll be traveling to points unexplored, traveling through time, feasting on God's word. I'll wait right here while you change your provisions.

Moments pass. Sue waits and Jane reenters, pulling luggage, loaded down with other luggage, food stuffs and appliances. Also, wearing an interesting hat.

Jane: Okay, Sue, this was harder than I thought. What do you pack for time travel? I tried to pack for all possible needs—lots of clothes, food, appliances, cell phone, camera and recorder. I really want to document our journey.

Sue: Jane, Jane, Jane (*shaking her head as she speaks*). Let's try again. We're taking a journey through Revelation—our 2010-2011 *Horizons Bible study*. There will be study time before our Presbyterian Women meetings, and once each month we will meet as a group to discuss our journey and to delve further. All you will need is your *Horizons* study book, your Bible and any resources you might choose.

Jane: Wow, this isn't going to be the chore I thought! I've got my Bible and study book right here. So I don't need this other stuff? Huh? What about this hat? Can I wear it? I got it especially for our journey.

Sue: Jane, keep the hat and wear it to every meeting—it's fun! Now, let's get moving or we are going to be late for Lesson One.
